

LAV-100 Series

Lavalier Microphone

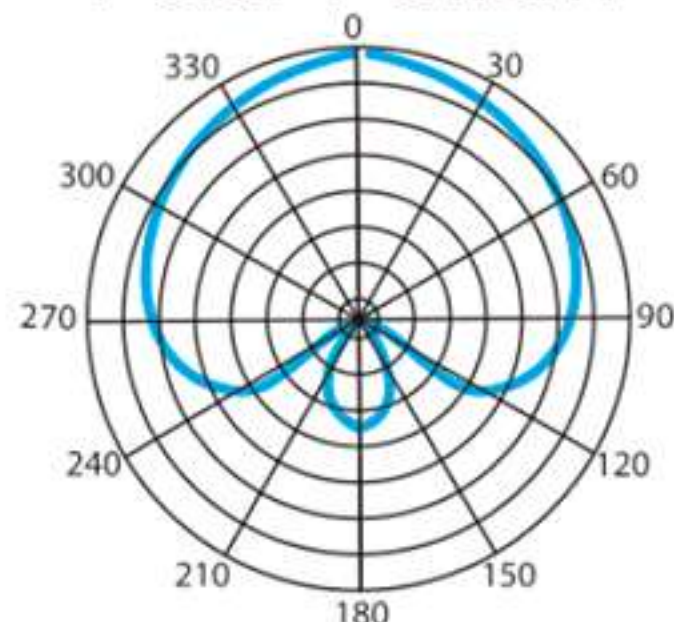

The Enersound LAV-100 is a professional unidirectional condenser lavalier microphone designed to work together with body pack wireless transmitters, cell-phones and tablets. Different connector configurations are available to match your device. For wireless bodypack transmitters, most common connectors are available. Its outstanding voice clarity and cardioid unidirectional pattern, makes it the ideal choice for live sound amplification, corporate events, houses of worship, audiovisual presentations, digital recording and speech recording applications.

Features:

- Excellent audio quality.
- 4 ft (1.2 m) cord.
- Black aluminum body.
- Metal collar clip.
- Can be attached to a person's clothing.
- Made of strong and durable metal materials.
- Multiple connector configurations available to match your device.
