

MIC-300 Series Headset Microphone

The Enersound MIC-300 is a professional headset microphone designed to work together with body pack wireless transmitters. It is ideal for speech and any application requiring improved gain before feedback over lavalier microphones. The unidirectional pattern minimizes background noise by focusing on the voice sound.

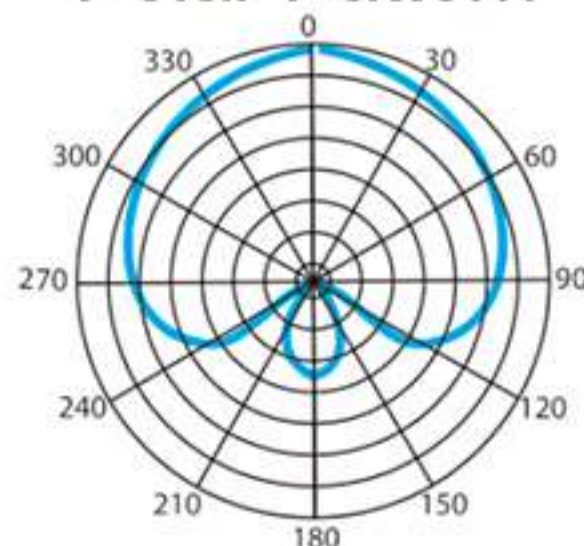

Its outstanding voice clarity and comfortable design makes it the ideal choice for live sound amplification, corporate events, houses of worship, audiovisual presentations, among other applications. The MIC-300 headset microphone is available with different connectors compatible with many wireless transmitters of different manufacturers.

Features:

- 360° adjustable and rotating microphone arm with metallic gooseneck for perfect voice pickup.
- Superb mechanical properties.
- High audio quality.
- Wire cleverly set around the neck for the best concealed effect.
- Metal core neck band with a smooth plastic sleeve for maximum comfort.

Polar Pattern

Technical Specifications:

Cable length	47"- 55" /1.2 - 1.4m
Polar pattern	Unidirectional
Sensitivity	- 48db ± 2db
Frequency Range	100Hz-17Khz
Output Impedance	≤ 680Ω
Operating Voltage	1.0V-10V.DC
Signal to Noise Ratio	≥50db
Weight with TRS Cable	47 gr/ 1.5 Oz
Included Accessories	Windscreen

Available Connectors:

MIC-300

With 3.5mm mono plug

MIC-300SEN

With 4-Pin HRS connector
