

MIC-400 Series Headset Microphone

The Enersound MIC-400 is a professional miniature ear set microphone designed to work together with body pack wireless transmitters. It is ideal for speech and any application requiring minimal visibility and improved gain before feedback over lavalier microphones.

Its outstanding voice clarity, and comfortable over-the-ear design, makes it the ideal choice for live sound amplification, corporate events, houses of worship, audiovisual presentations, among other applications. Its detachable cable allows for easy replacement on site.

Features:

- Superb audio quality for outstanding voice clarity.
- Comfortable, lightweight, over-the-ear design.
- Minimal visibility in beige with miniature 4 mm capsule.
- Beige finish for inconspicuous appearance.
- Custom fit bendable boom for maximum comfort.
- Included detachable cable with your selected connector. Additional cables with other connector types can be purchased separately.
- Ideal for houses of worship, theaters, audiovisual presentations, corporate events, and more.
- Includes protective storage pouch, 2 wind screens, manual and cable.
