

## LAV-100 Lavalier Microphone

The LAV-100 is a professional lapel clip microphone with excellent audio quality, and a small, exquisite metal collar clip. It comes with a 3.5mm microphone plug and a 47-inch (1.2 m) cord. Its black aluminum body and metal clip make this a very durable and elegant microphone. The LAV-100 capsule has a directional pattern so that it can best respond to sound from the front, while rejecting sound that arrives from other directions. It is the best choice for speakers who need to disguise the use of a microphone. Unlike traditional handheld microphones, the LAV-100 can be attached to a person's clothing. Each LAV-100 microphone comes with a windscreen.

### Technical Specifications:

Sensitivity: -48 db

Impedance: <680 Ohm

Current Consumption: 0.5mA

Frequency Response: 100-10Khz

Cable Length: 1.2 meters

Connector: 3.5mm mono Plug

Signal to Noise Ratio: >50db

Directivity: Unidirectional

Operation Voltage: 1.0V - 10.0V (required)
